## Massage ritual with luxurious body care

### What is a body ritual?

As cleansing the body and the spirit it is a full body treatment. The ritual appeals to all senses which means you perceive the cleansing ritual with all five senses – you will taste it, feel it on your body, it envelopes you in the enchanting aroma and your eyes may have a soothing sleep. A cleansing aroma bath is waiting for you as well as a gentle and pampering peeling or a body mask. In particular you get a harmonious body massage with aromatic oils.

### Massage rituals for 1 persons, the body and the soul

#### REJUVENATING RITUAL - WINE THERAPY

A luxurious care warms up, harmonizes, smooths down and relieves not only the body but also the soul. A relaxing massage and full body scrub with fine sea salt leave your skin silky smooth and soft. It positively effects the psyche, brings a sense of harmony and joy. It calms you down and gives you the feeling of a luxury care. It slightly effects woman's sensuality thanks to the aromatherapeutical effect of champagne with wine extracts. It promotes blood and lymph circulation.

- Partial massage with an essential oil of wine and champagne
- Complex body treatment by sea salt peeling
- Fine massage of the face with Champagne and grapes mask
